Background

Friendship Public Charter School (FPCS) is the largest public charter school system serving nearly 4,000 students in Washington D.C. on five campus locations. FPCS's mission is to prepare a diverse, cross-section of children for success as students, workers, and citizens by providing them with a world-class education that motivates students to achieve high academic standards, enjoy learning and develop as responsible, ethical contributors to their communities. Students of the Friendship Public Charter School System benefit from a high-quality school design, caring teachers, 21st century technology, and strong connections with their respective communities. Since its founding in 1998, the Friendship Public Charter School System has opened four of its five campuses in formerly vacant D.C. public school buildings. The fifth

campus is housed in a converted Safeway supermarket. It has invested over thirty-million dollars to turn these buildings into attractive centers of learning where children and teens feel valued and supported. Using proven teaching techniques and state-of-the art technology, students have made dramatic gains on the Stanford Achievement Tests and in a city where barely 52 percent of young people are graduated from high school, this year, Friendship's Collegiate Academy achieved a 92 percent graduation rate among a senior class of 300. These students received offers from Bucknell University, the College of William and Mary, Carnegie Mellon University, Howard University and the Rochester Institute of Technology.

The Board of Trustees of the Friendship Public Charter School has determined that to reach FPCS's next stage of development, it must consider raising the level of its financial resources. To reach a definitive decision regarding what that level of support might be, and who might provide it, FPCS will select a consulting firm to provide it with an objective assessment of its ability to raise fifty-million dollars over a three-year period.

- Order and maintain mailroom supplies
- Inter-office mail pick-up and delivery
- Process incoming and outgoing mail (USPS)
- Process express/overnight mail packages

* The effect of the proposed rates on any particular customer is dependent upon the actual usage of the customer. Increases shown are for customers with the average monthly usage.

** Standard Offer Service customers purchase their electricity from PEPCO. For those customers who purchase their electricity from competitive suppliers (i.e., suppliers other than PEPCO), the dollar amounts and percentages in the Total Bill column are not applicable.

*** The Street Lighting and Traffic Signal increases shown refer to the total class. The Telecommunications Network (TN) increase is calculated based on the present General Service Non Demand rates under which these customers are currently served and the proposed revised Schedule TN that would be applicable to these customers with larger telecommunications network devices.

Customers who participate in PEPCO's Residential Aid Discount (RAD) program would not be affected by PEPCO's proposal, as distribution rates for RAD customers will remain capped until August 2009.

As part of its proposal, PEPCO includes a Bill Stabilization Adjustment (BSA) which would automatically adjust distribution service rates – increasing rates when actual revenues per customer are below the Commission-approved level and decreasing rates when actual revenues are above the Commission-approved level. In addition, PEPCO is

seeking to introduce a surcharge for the purpose of recovering pension and other post-employment benefits expense.

PEPCO's rate filing is available for inspection at the Public Service Commission's Office of the Commission Secretary, 1333 "H" Street, NW, 2nd Floor – West Tower between the hours of 9:00 a.m. and 5:30 p.m., Monday through Friday. Copies of the Application can be purchased at the Commission at a cost of \$0.10 per page, actual reproduction cost. PEPCO's rate filing may also be inspected at the following public libraries:
